

ST230D Tel Line Tester

Brief Introduction

ST230D Tel Line Tester is a new kind of line fault tester with safety & multi-functions capabilities. Besides the basic functions as a common Tel Line Tester, it also has functions of high voltage protection and polarity indication, and so on.

Main Functions

- Common telephone function: Dial, Ring, Talk
- Mute
- T/P switch
- High voltage protection (by fuse)
- Polarity indication by LED
- Volume adjust

- Pause
- Store phone number
- Monitoring function
- Last number redial
- Telecom Line Identifying (Telephone line, ISDN line, ADSL line)

Key Features

- Dumbbell shape, small size, simple operation
- Special Dumbbell shape design
- Small size
- Easy operation
- Solid new materials for shell
- Waterproof and vibration proof

Dimension & Weight

- Dimension (mm): 232x73x95
- Weight (kg): ≤ 0.5

Operation Environment

- Environment temperature: -10°C~55°C
- Relative humidity: 10%~95%
- Environment noise: ≤60dB
- Atmospheric pressure: 86~106Kpa

Accessories

- RJ11 assistant test cord × 1
- 0.3a fuse tube x 1
